📍 Hosur, Tamil Nadu, India

SUMMARY

As a Senior Android Developer, I possess extensive experience in developing high-performance Android applications utilizing Kotlin, Java, and advanced architectural frameworks like MVVM and Clean Architecture. I excel in POS integration, SDK development, and managing teams to deliver exceptional mobile solutions. My commitment to mentoring and driving architectural decisions has consistently resulted in the successful deployment of enterprise-grade applications

EXPERIENCE

Senior Software Developer – Android (Team Lead)

Pozomind Technologies Pvt Ltd

📅 09/2025 📍 Hosur, Tamil Nadu, India

- A technology company specializing in mobile solutions and software development
- Leading a team of 8 Android developers, mentoring junior members and ensuring high-quality deliverables, resulting in 99% crash-free stability.
 - Architected scalable Android applications using Kotlin, Jetpack Compose, and MVVM while enforcing clean architecture through strict code reviews.
 - Improved deployment speed by 30% with the implementation of CI/CD pipelines, enhancing project efficiency.
 - Remodeled legacy codebases into scalable modular architecture, improving performance and maintainability.
 - Modeled reusable architecture components and SDK modules, boosting development efficiency.
 - Enhanced in-house Printer SDK with better ESC/POS support and dynamic receipt rendering.
 - Showcased integrity and adaptability: executed initiatives, informed stakeholders, optimized workflows, provided quality results.
 - Formed strong engineering workflows and completed major project deliverables with consistency, quality, and on-time execution.

Senior Software Developer – Android

Prematix Software Solutions

📅 07/2023 - 08/2025 📍 Hosur, Tamil Nadu, India

- A software solutions company focused on mobile and enterprise applications
- Developed high-scale Android apps using Kotlin, Java, MVVM, and Jetpack Components
 - Built advanced POS/Thermal Printer modules (USB/Wi-Fi) with robust ESC/POS command generation
 - Improved application cold-start performance by 40% and optimized UI rendering
 - Delivered multi-platform solutions for Mobile, TV, and POS systems
 - Mentored developers and ensured code quality via review and documentation

SQL Developer (ERP Intern)

Carborundum Universal Limited

📅 12/2022 - 06/2023 📍 Hosur, Tamil Nadu, India

- A manufacturing company engaged in industrial abrasive products
- Handled ERP troubleshooting, SQL scripting, CRM workflows, and system support

PROJECTS

Retail Application (Mobile + TV + POS)

📅 01/2023

- A comprehensive retail application catering to mobile, TV, and POS platforms
- Complex retail suite with billing, reservations, inventory modules, and POS printing integration

SKILLS

Mobile & Android Development

Android SDK	Jetpack (Compose)	XML
Material Design	LiveData	Bluetooth
POS System	Play Store Deployment	

Programming Languages

Core Java	Kotlin	Python	C & C ++
-----------	--------	--------	----------

Architecture & Design Patterns

MVVM	Modular Architecture
------	----------------------

Dependency Injection

Dagger	HILT
--------	------

Backend & API Technologies

REST APIs	JSON	Retrofit	RxJava
Spring Boot	Java Spring		
Payment Gateway Integration			

KYC Integration	Gmail Integration
-----------------	-------------------

Databases & Data Management

Room	SQLite	SQL	SQL Developer
ERP Systems			

Cloud & Backend Services

AWS	Google Firebase
-----	-----------------

Testing & Quality Assurance

Unit Testing	JUnit	Espresso
--------------	-------	----------

Development Tools & IDEs

Android Studio	Git	GitHub	GitLab
Gradle	Postman		

UI / UX & Design Tools

Figma	Wireframes
-------	------------

PROJECTS

Pozo Printer SDK

📅 05/2023

An SDK for seamless and efficient printing across devices

- Increased device compatibility by 30% by developing Universal Android printing engine with Wi-Fi/USB support.

Boating Reservation System

📅 01/2023 - 12/2023 📍 TTDC & Kodaikanal

System developed for boating reservations

- Complete booking and ticketing system with HDFC payment gateway integration

Insurance App Suite

📅 06/2024 - 12/2024

An application suite designed for insurance policy management

- Policy comparison, UPI/HDFC payments, POSP onboarding, and secure authentication

EDUCATION

B.E. in Computer Science Engineering

Adhiyamaan College of Engineering

📅 08/2018 - 06/2021 📍 Hosur, Tamil Nadu, India

Diploma in E-Robotics

Er. Perumal Manimekalai College of Engineering

📅 08/2016 - 06/2018 📍 Hosur, Tamil Nadu, India

STRENGTHS

Leadership

Demonstrated ability to lead teams and deliver projects under tight deadlines

Problem Solver

Strong problem-solving skills with experience in troubleshooting and system optimization

Agile Practitioner

Proficient in agile methodologies and client coordination

KEY ACHIEVEMENTS

Achievements in Project Delivery

Successfully delivered 10+ enterprise modules and Printer SDK, which are used across multiple apps

Leadership in Student Organizations

Served as Vice President of the ISTE Chapter, mentoring and leading initiatives

Sports Leadership

Led my school basketball team as captain, demonstrating teamwork and leadership skills

SKILLS

Project Management & Methodologies

Agile

Scrum

SDLC

JIRA

Security & Validation

Regex

Soft Skills & Leadership

Team Leadership

Code Review

Problem Solving

Task Management

Mentoring

Collaboration

Media & Creative Tools

Adobe Premiere

CorelDRAW

INTERESTS

Mobile Application Development

Passionate about mobile application development and enhancing user experience through design

Backend Development (Spring Boot)

Interested in backend development using Spring Boot and software architecture

UI/UX Design

Enjoys UI/UX design and software optimization, focused on creating user-friendly interfaces

CERTIFICATION

Full Stack Development (MEAN)

Certificate obtained for Full Stack Developer training

Java, Python, C, C++ Programming

Certification in programming including Java, Python, C, and C++

NCC “B” & “C” Certificates

Certificates from the National Cadet Corps

Adobe Premiere & CorelDRAW

Courses in video editing and graphics design
