

Shree Bhargav R K

ANDROID DEVELOPER

✉ rkshree001@gmail.com 📞 9080322066 📍 Hosur, Tamil Nadu, India

Profile

Highly skilled Android Developer with over 2 years of experience in designing, developing, and deploying mobile applications. Proficient in Java, Kotlin, and SDK implementation with a strong understanding of MVVM architecture. Expertise in REST API integration, cross-platform testing, and UI/UX optimization. Passionate about enhancing app performance and collaborating in agile environments.

Detail-oriented and innovative software engineer adept at tackling complex challenges and driving projects to completion. With a focus on continuous improvement, I leverage my deep technical background and collaborative skills to create high-quality, user-centric solutions that meet both business and customer needs.

Work Experience

Senior Software Developer (Android Developer) Jul 2023 – Present

Prematix Software Solutions, Hosur

- **Lead a team of 10 developers**, overseeing **code reviews, task assignments, mentoring, and problem-solving** to ensure project success.
- **Plan, design, develop, and deploy** Android applications using **Java, Kotlin, and SDK integrations**, ensuring **high performance and seamless functionality**.
- **Manage Play Store deployment**, including **release APK generation, version control, and compliance** with Google Play guidelines.
- **Enhance application reliability** through **unit testing, debugging, and performance optimization** for a **stable and efficient user experience**.
- **Streamline team onboarding and knowledge sharing**, fostering a collaborative and productive work environment.
- **Collaborate with UI/UX designers** to transform wireframes into **intuitive, high-performance applications**.

Freelancing Android Developer Jun 2024 – Dec 2024

Bnet Global Solutions, Bengaluru, India

- **Developed an Insurance Policy Buying App** from scratch with a user-friendly UI/UX and robust REST API integration using JSON.
- **Optimized app performance and scalability** while ensuring data security compliance.
- **Provided ongoing support**, resolving bugs and enhancing features based on user feedback.

SQL Developer (ERP Intern) Dec 2022 – Jun 2023

Carborundum Universal Limited, Hosur

- Managed ERP troubleshooting by handling front-end and back-end interactions.
- Worked with SQL databases and CRM administration.
- Assisted as a system administrator for ERP platforms.

Project Portfolio

Retail Application (09/2023 – Present)

- Developed a multi-platform application for mobile, TV, and POS terminals.
- Integrated seamless booking and printing functionalities with Wi-Fi & USB thermal printers and implemented table and chair-level service booking for enhanced user experience.

Pozo Printer (03/2024 – Present)

Skills

- Java
- Kotlin
- RxJava
- LiveData
- Coroutines
- C & C++
- Android SDK
- JetPack Compose
- MVVM Architecture
- Retrofit
- JSON
- SQL
- SQLite
- Room DB
- Firebase Firestore
- Offline DB
- REST API integration
- Spring Boot
- Unit Testing
- Cross-Platform Testing
- JUnit
- Espresso
- Git, GitLab, GitHub
- Jira
- Android Studio
- Gradle

- Designed an Android-based POS printing solution.
- Implemented regex-based field extraction and secure token-based data decryption and Enabled printing via USB and Wi-Fi thermal printers.

Boating Application (01/2024 - Present)

- Developed an online booking system for TTDC and Kodaikanal Municipality.
- Integrated role-based login (Super Admin, Admin, User, Public User).
- Implemented SQL offline database integration and HDFC payment gateway.

Insurance Policy Apps (Freelance - 2024)

- **Policy Fynder:** Developed an insurance purchasing platform with **policy comparison, real-time quotes, and secure payments** across multiple insurance modules. Ensured **high-performance UI/UX** and **regulatory compliance**.
- **POSP (Tablet & Mobile):** Built a POSP app for **policy sales and management**, integrating **quote generation, secure transactions**, and multi-category support. Implemented **role-based dashboards** (Admin, POSP, Super Admin, RM) and designed **POSP onboarding with KYC verification**.

Education

B.E. in Computer Science Engineering

Jun 2020 - Apr 2023

Adhiyamaan College of Engineering, Hosur

CGPA: 7.9

- **AI-Based Child Drowning Prevention System | Main Project (2022 - 2023)**

Developed an AI-powered face recognition system to detect children under five in deep water and alert lifeguards in real-time, enhancing pool safety.

- **Web Phishing Detection Using ML | Mini Project (2021 - 2022)**

Built a machine learning model to detect phishing websites, preventing online fraud and securing user credentials.

Diploma in E-Robotics

Jun 2017 - Apr 2020

Er. Perumal Manimekalai College of Engineering, Hosur

Percentage: 74%

- **Automatic Aquaponics System Using Arduino | Diploma Project (2019 - 2020)**

Designed an Arduino-based automated aquaponics system to monitor and control water quality, nutrients, and environmental conditions for optimized plant growth.

Key Achievements

Vice President of ISTE

Led key initiatives and organizations as Vice President of the Indian Society for Technical Education at Adhiyamaan College

Basketball Team Captain

Captain of the Basketball Team in school (2016-2017) and diploma (2018-2020), showcasing leadership and teamwork skills.

Sergeant in National Cadet Corps (NCC)

Demonstrating discipline, leadership, and teamwork.

Rotary Club Member, Hosur

Served for **4+ years**, holding leadership roles as **Secretary (2+ years)** and **Vice President (1 year)**. Actively participated in and organized **eye camps, marathons, eye surgeries, blood donation drives, walkathons, and various social welfare events**, contributing to **community development and event management**.
